

Key

Cultivating Our Impact

IonE catalyzes sustainability outcomes. We do this by strengthening an ecosystem of activity from the ground up - investing in people and supporting work that drives change.

INSTITUTE ON THE
ENVIRONMENT

Solutions Take Root

Communities, organizations, and governments adapt and adopt solutions at scale

Communities Thrive

Locally, regionally, and globally, people are inspired and equipped to drive progress

Systems Change

Our state, region, and world are transformed - realizing a just, sustainable future

Actionable Solutions

Evidence-based answers to specific sustainability challenges

Activated People

Skilled and knowledgeable individuals, connected to one another

Amplified Ideas

Sustainability innovations and insights, accessible and widely shared

Network-Building Activities

Programs that serve to connect people and seed collaborations

Learning & Development Offerings

Building skills and knowledge across all ages and career stages

Public Interest Communications

Storytelling and publications that advance sustainability goals

Reporting & Recognition

Tracking - and celebrating - outcomes and impact over time

Interdisciplinary Research

Community-engaged, outcomes-oriented projects and programs

Interdisciplinary Expertise

Resources & Funding

Digital Platforms & Tools

Physical Space & Facilities

Operational Infrastructure
